FUTURE READYNYC

NYC Public Schools · Office of Student Pathways

Get paid to code in high school.

Graduate with real experience.

SOFTWARE DEVELOPMENT PATHWAY

WHAT YOU GET

Everything in this program is free.

- *Get paid through a real internship* **(starting in 11th grade)**
- *Earn college credits before you graduate*
- *Get certifications that matter for jobs*
- *Build real projects you can show*
- *Learn skills companies actually use*

WHAT YOU'LL ACTUALLY DO

- **Build apps, websites, and real projects**
- **Learn coding (Python + Java) from the ground up**
- **Use the same tools real developers use**
- **Visit tech companies and see the job firsthand**
- **Solve real problems using code**

YOUR 4-YEAR PATH

9TH	10TH	11TH	12TH
EXPLORE	*LEARN*	*APPLY*	*LAUNCH*
Try coding, see if it's for you, build first projects	Get better at coding, earn your first cert, visit real worksites	Get a paid internship + start earning college credits	Graduate with experience, certs, and real projects you built

WHERE THIS CAN TAKE YOU

- **Software Developer**
- **Web Developer**
- **App Developer**
- **IT / Tech Support**

Software Developer · avg. $131,790 / year
Bureau of Labor Statistics median wage

WHO THIS IS FOR

- **You like building things, not just sitting in class**
- **You're curious about tech, apps, or coding**
- **You want a head start before college**

Want in?
